**Title: Process Configuration vs. Methodology Development**

**URL:** [http://www.thepmopodcast.com/mp3/The\\_PMO\\_Podcast\\_117\\_Process\\_Configuration.mp3](http://www.thepmopodcast.com/mp3/The_PMO_Podcast_117_Process_Configuration.mp3)

**Type:** Audio Media. No registration. No member fees.

**Date:** Any

**Time:** Any

**Duration:** 17 Minutes

**Cost:** Free

**Featured Interview:** Mark Perry, host of The PMO Podcast

**Discussion:**

- While some organizations do a very good job with their methodologies, many organizations find methodologies fine in theory, but often lacking in practice.
- One approach and alternative to methodology development that more and more PMOs are adopting is process configuration.
- Process configuration is an approach to defining, documenting, rendering, using, maintaining, and improving the best practices of the PMO.
- Process configuration is a framework approach that provides a consistent view of the processes of the PMO, a consistent level of detail, and integration into the process of the tools, information, and organization domain knowledge that support the integrity of the process and of the project efforts.
